

torbo COMPACT AC18

More compact doesn't go

The ideal wet abrasive blasting system for all painters, restorers and building-cleaners. It is employable for cleaning monuments, facades as well as the graffiti-distance.

The **torbo COMPACT AC18** is equipped with a compressor and fine adjustable air regulating valve for blasting pressure. In addition, there is a metering device for the abrasive mixture and the supplemental water supply.

The compact dimensions, in addition to a set of wheels and special forklift tubes, ensure easy manoeuvring and loading.

With the **torbo-System**, you reduce your overheads and save the environment!

Volumen of vessel	l or dm ³ (Cu. ft.)	60 (2,11)
Air connection	mm (Zoll)	19 (3/4)
Compressor-connection (installed performance)	m ³ /min (Cu. ft. per min)	1,8 (63,6) at 7bar
Compressor-connection (min - max.)	m ³ /min (Cu. ft. per min) bar (PSI)	2,0 - 4,0 (70 - 140) 4,0 - 8,0 (57 - 114)
Water connection	bar (PSI)	up to 12,0 (up to 170)
Stream-connection	V (W)	12 (1,2)
Connection blasting hose	mm (Zoll)	19 (3/4)
Consumption of blasting media (min - max)	l/h (USgal per h)	24 - 72 (6,3 - 19)
Consumption of additional water (min - max)	l/h (USgal per h)	0 - 30 (0 - 7,9)
Consumption of cleaning water (min - max)	l/h (USgal per h)	0 - 144 (0 - 38)
Dimensions, approx. (H x W x L)	mm Zoll	1.130 x 880 x 1.200 44,5 x 34,5 x 47,2
Weight (empty)	kg (lbs.)	345 (753)
Permissible total weight (max.)	kg (lbs.)	1.000 (2.200)
