

TCM torbo L200 and torbo XL200

The big torbo for Soft and power blasting

With 200 l vessel-volume, you work up to 4 hours per filling. With the compressed air-connection of 1 1/2 " (**torbo L200**) as well as 2 " (**torbo XL200**), you have performance-reserves for each renovation-work sufficiently.

The use-area is concrete - and steel-redevelopment, just as the cleaning of facades.

With the **torbo**-System, you reduce your overheads and save the environment!

Volumen of vessel	l or dm ³ (Cu. ft.)	200 (7,06)
Air connection - torbo L200 - torbo XL200	mm (Zoll)	38 (1 1/2) 49 (2)
Compressor-connection (min - max.) - torbo L200 - torbo XL200	m ³ /min (Cu. ft. per min) bar (PSI)	2,0 - 10,0 (70 - 350) 2,0 - 15,0 (70 - 525) 4,0 - 10,0 (57 - 142)
Pressurized water connection	bar (PSI)	up to 12 (up to 170)
Stream-connection	V (W)	12 (1,2)
Connection blasting hose	mm (Zoll)	38 (1 1/2)
Consumption of blasting media (min - max)	l/h (Cu. ft. per h)	14,5 - 288 (0,5 - 10,2)
Dimensions, approx. (H x W x L)	mm Zoll	1.360 x 750 x 1.100 53,4 x 29,5 x 43,3
Weight (empty)	kg (lbs.)	215 - 300 (470 - 661)
Permissible total weight (max.)	kg (lbs.)	1.000 (2.200)
