

## TCM torbo S080 and torbo M080

### The smallest torbo with big performance

With only 80 l vessel-volume, you work in average 0,5 to 1 hrs per filling.

The use-area is facade-cleaning and the monument-care.

With the **torbo**-System, you reduce your overheads and save the environment!

Volumen of vessel	l or dm <sup>3</sup> (Cu. ft.)	80 (2,83)
Air connection - torbo S080 - torbo M080	mm (Zoll)	25 (1) 38 (1 1/2)
Compressor-connection (min - max.) - torbo S080 - torbo M080	m <sup>3</sup> /min (Cu. ft. per min) bar (PSI)	2,0 - 5,0 (70 - 175) 2,0 - 10,0 (70 - 350) 4,0 - 10,0 (57 - 142)
Pressurized water connection	bar (PSI)	up to 12 (up to 170)
Stream-connection	V (W)	12 (1,2)
Connection blasting hose	mm (Zoll)	38 (1 1/2)
Consumption of blasting media (min - max)	l/h (Cu. ft. per h)	14,5 - 288 (0,5 - 10,2)
Dimensions, approx. (H x W x L)	mm Zoll	1.130 x 660 x 720 44,5 x 26 x 28,3
Weight (empty)	kg (lbs.)	125 - 165 ( 275 - 320)
Permissible total weight (max.)	kg (lbs.)	500 (1.100)
